ABOUT

The COVID-19 has impacted every kind of institution: government, medical, transport, and - most importantly - education.

While it's been a year marred with tragedy and heartache, by necessity education innovations and new approaches have emerged out of the turmoil and are presenting real opportunities to transform education worldwide.
With schools conducting: Online classes, charity drives, and virtual field trips;

ABOUT

We are amazed at how teachers and students have carried themselves forward amidst COVID-19

Amid the global pandemic, we empathize with all the teachers across the world who have adapted to the changing learning environment. While schools might be ‘closed’ across the world, it is crucial for us to acknowledge that it is only the school buildings that are closed. Teachers have been working harder than ever.

This event is to raise awareness about our teachers' efforts and to promote a healthy lifestyle.
